Powerful, but easy-to-use features

All-in-One Capture

Capture your entire desktop, a region, a window, or a scrolling screen.

Panoramic Scrolling Capture

Take a full-page, scrolling screenshot. Snagit makes it simple to grab vertical and horizontal scrolls, infinitely scrolling webpages, long chat messages, and everything in between.

Grab Text

Extract the text from a screen capture or file and quickly paste it into another document for edits. Easily copy information without retyping all the text.

Screen Recorder

Snagit's screen recorder lets you quickly record yourself working through steps. Or grab individual frames out of the recorded video. Save your video file as an mp4 or animated GIF.

Record Webcam

Toggle between webcam and screen recording during a video. Use the recorder to add a personal touch with teammates or clients, no matter where they are.

Record Audio

Include audio in your videos from either a microphone or your computer's system audio.

Animated GIFs

Turn any short recording (.mp4) into an animated GIF, and quickly add it to a website, document, or chat. Snagit comes with default and custom options to create the perfect GIF, every time.

Trim Video Clips

Remove any unwanted sections from your screen recordings. Cut any section at the beginning, middle, or end of your video.

Record iOS Screen

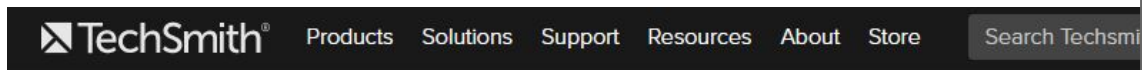

The TechSmith Capture App lets you record your iOS screen with just a few taps and instantly share it back into Snagit for trimming.

Annotations

Annotate screen grabs with professional markup tools. Add personality and professionalism to your screenshots with a variety of pre-made styles. Or you can create your own.

With the imminent discontinuation of Adobe's support for and development of Adobe Flash, Jing's use of the .SWF Flash video format will no longer be possible.

Because we are passionate about making it easy for anyone to teach, train, and explain concepts visually, TechSmith is committed to offering a free screen capture and screen recording tool for our customers. This brought us an opportunity to build a new, more modern no-cost solution for our users. TechSmith Capture offers modernized enhancements including a new approach to the User Interface that better aligns with our other flagship screen capture products, Snagit and Camtasia.

TechSmith Capture offers a number of features, including:

- New, modernized video capture, including longer video recording, as well as webcam and system audio recording.
- Share to your Screencast or TechSmith Knowmia account.

ENSEMBLE VIDEO - FEATURES

Ensemble Video offers Mobile Capture, Screen Capture, Lecture Capture and Live Streaming Capture options, making video capture easy, flexible and affordable.

Screen Capture

Ensemble Anthem is an all-in-one screen capture solution enabling capture, editing and publishing into Ensemble and your LMS/CMS.

Chrome Recorder Extension

Create screen and webcam recordings on Chromebooks and PCs with the Chrome Browser!

Live Stream

Ensemble Video offers simple and effective ways to broadcast live streams to a webpage, CMS, LMS, blog or portal.

Webcam Capture

Record video from any webcam, then edit and automatically publish into Ensemble Video and your LMS/CMS.

Mobile Apps

Use the Ensemble Video mobile apps to record, live stream, manage and share content from your device to any screen.

Lecture Capture

Ensemble Studio enables you to schedule video recorders to automatically capture, stream and record content into Ensemble Video.

Audio Capture

Record video from any microphone, then edit and automatically publish into Ensemble Video and your LMS/CMS.

Hardware Capture

Ensemble Video enables ingestion from a variety of video capture devices (Matrox, Winnov, Crestron, Extron, and more).

Live Capture

Ensemble Video enables users to simultaneously broadcast and record live streams into an Ensemble Video media library.

ENSEMBLE VIDEO - #1 THE PLATFORM INTERFACE

The screenshot displays the Ensemble Video platform interface within a web browser. The browser's address bar shows the URL `media.cedarville.edu/app/Library.aspx`. The user is logged in as Nathanael Davis. The interface includes a navigation sidebar on the left with options for Media Library, Shared Library, Playlists, and Administration. The main content area is titled "Media Library" and features a search bar, a "Search Library" button, and a "Bulk" action menu. Below these are filters for "Ensemble Anthem, Ensemble Studio" and "Newest", along with a "10 per Page" dropdown. A list of items is shown, with the first item being a video titled "Research Process: Evaluate & P...". The video thumbnail includes a "CC" logo and a "1" icon. Below the video are options for "Download", "Embed", and "Permalink". At the bottom right of the video area are icons for "Copy", "Edit", "Manage", "Publish", and "Delete".

ENSEMBLE VIDEO - #3 THE VIDEO SETUP

RECORDING...

The screenshot shows the recording interface with a top bar containing '+ Add', 'Record', and 'Transfer' buttons. Below is a 'Select All' button and a video preview area. The video preview shows a thumbnail for 'The Research Process' with a progress bar at 1. The video title is 'Research' and it is marked as 'Ready' on '07/23/2020'. The video is published and has a Creative Commons license. At the bottom, there are 'Download', 'Embed', and 'Permalink' options.

OPTIONS...

The screenshot shows the 'SETTINGS' menu with four options: 'Screen', 'Screen & Webcam', 'Webcam', and 'Voice'. Each option is represented by an icon: a monitor for 'Screen', a monitor and webcam for 'Screen & Webcam', a webcam and microphone for 'Webcam', and a microphone for 'Voice'. The 'ensemble anthem' logo is at the bottom.

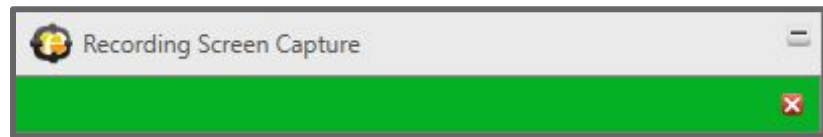

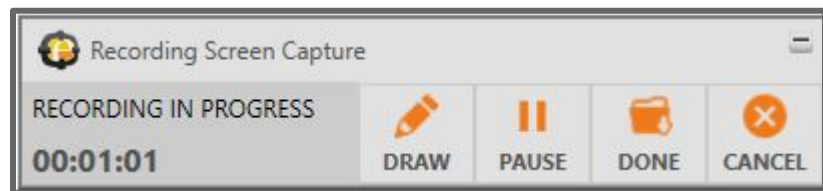

The screenshot shows the 'SETTINGS' menu with 'Local Media Files Storage' and 'Capture Settings' sections. The 'Local Media Files Storage' section shows the path 'H:\Ensemble_Video' and a 'Browse' button. The 'Capture Settings' section includes 'Select a Webcam' (USB Video Device), 'Screen Recording Quality' (720P selected), 'Use Low Capture Mode' (unchecked), 'Select a Microphone' (Default), and 'Record Desktop Audio' (checked). The 'Media Upload' section has a checkbox for 'Delete recordings on disk after upload'. A 'SAVE' button is at the bottom right.
